

issue 3: Halloween

MONSTER MATH : LULU ON THE LOOSE

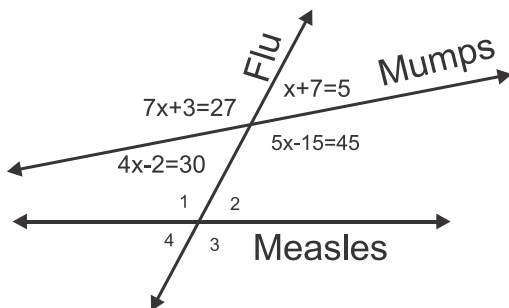

Lulu has come out to play and the city is in terror. At 800 pounds and bullet proof, Lulu is an unstoppable force of destruction.

Lulu ran through the entire town of Mudville and made a mess of 2 out of every 5 buildings. There are 80 buildings in the town. Out of all the buildings Lulu smashed, 1 out of 4 buildings were fast food stores. How many fast food stores were smashed during Lulu's play time?

ADVENTURES OF THE ILLUMINANTS

Dragon Lily has located the meeting point and must determine who is her contact. Dragon Lily's contact is located at the street corner of Flu and Measles. The contact is at the corresponding angle to the location on Mumps street with the value of 12.

MARSH OF MYSTERY

Deep in the woods is a ancient spring where water flows out over a long abandoned burial ground. The evil spirits that abide in the area try to cause unhappiness to residents of Mudville.

The Water flows out of the drain at the rate of 2 gallons every 3 seconds. How many gallons come out in a day?

If the evil spirits need 30,000 gallons in order to make one resident of Mudville unhappy, how long will it take the spirit to make a hundred unhappy.
